

Sekcja:

Intercultural Education and Humanising Research in a Globalised World: Fostering Participatory and Inclusive Practices

Names of coordinators along with contact details:

dr hab. Urszula Markowska Manista (u.markowska-ma@uw.edu.pl)

dr Maria Balkan-Matecka (maria.balkan@uw.edu.pl)

Name and information about the research team coordinating the section:

Interdisciplinary Research Centre for Education and Intercultural Communication

The Interdisciplinary Research Centre for Education and Intercultural Communication is an inter-faculty platform for research and teaching cooperation, associating employees of the Faculty of Modern Languages of the University of Warsaw and the Faculty of Education of the University of Warsaw conducting research and undertaking initiatives in the field of intercultural education, intercultural communication and support in the process of adaptation and integration of people from different cultural backgrounds, with particular emphasis on children, pupils and students with migration experience and special educational needs.

The topics of interdisciplinary research organized by the Center concern:

- contemporary challenges in intercultural communication and education,
- participatory research approaches, especially in the context of cultural diversity,
- humanizing methodology and transformative research approaches,
- inclusive practices in research process,
- collaborative intercultural participatory activities of children, teachers, students and scholars,
- child's perspective in research process,
- communication and intercultural education in teacher education.

Section language:

english

Key words:

intercultural communication, intercultural education, participatory approach, humanizing methodology, participation in intercultural education

Call for papers:

The aim of the proposed panel is to exchange knowledge and experiences in the area of intercultural communication in educational contexts with particular emphasis on participatory oriented research methodology, inclusive practices, practices supporting the child's perspective in the research process and threats resulting from the adultist perspective in the research conducted so far.

We invite all scholars interested in the above-listed issues to join us.

The panel is also to become an opportunity for young researchers (PhD students and MA students) to present their research areas and establish their first scientific contacts.
